## **Terms of Use**

The terms of use for this study can be found at:  
<http://www.icpsr.umich.edu/icpsrweb/ICPSR/studies/35525/terms>

## **Information about Copyrighted Content**

Some instruments administered for studies archived with ICPSR may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

**NOTICE  
WARNING CONCERNING COPYRIGHT RESTRICTIONS**

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

## **ICPSR PROCESSING NOTES FOR #35525**

*Project STRIDE: Stress, Identity, and Mental Health, New York City, 2004-2005  
DS3: Public Use Aggregate Data*

1. **Confidentiality/Disclosure Risk:** In order to protect respondent anonymity and prevent disclosure risk, ICPSR has masked variable **ZIP** and the day component of variable **SCR9**.
2. **Variable Differences:**
  - a. Several variables occur in the data but not the documentation; no further information was provided.
  - b. Some variables that are referenced in the questionnaire and methodology report are not included in the data set released by ICPSR; no further information was provided.
3. **Undocumented Codes:** The variable **SCR12** contains undocumented values which ICPSR has labeled "Undocumented Code." No further information was provided.
4. **Additional Information:** For additional information please visit the [Project STRIDE](#) Web site.

### **Variable Description and Frequencies**

**Note:** Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, arithmetic mean, median, mode, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.
